If your file opens up in your browser instead of downloading automatically, just click the 3 dots and select “Download”.

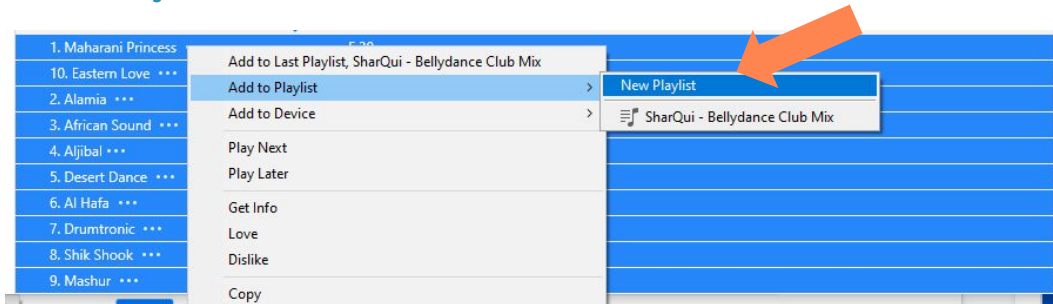

2. Open iTunes on your computer and click File -> “Add File to Library”

If you're trying to add multiple songs at once, put them all into a single folder on your computer and use “Add Folder to Library” instead!

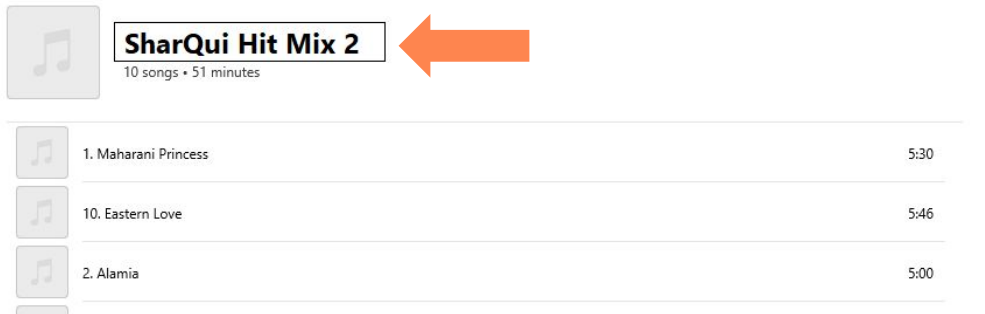

Add SharQui Playlists to the Apple Music Player

3. Select the songs you just added in your iTunes music library. Click the 3 dots next to the song name and select “Add to Playlist” -> “New Playlist”

You can make any combination of songs into a playlist!

4. Name your new playlist by clicking the existing name and typing in the box

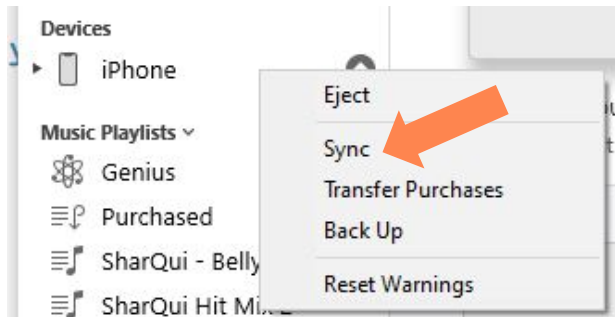

Click and drag songs to reorder them in your playlist if needed!

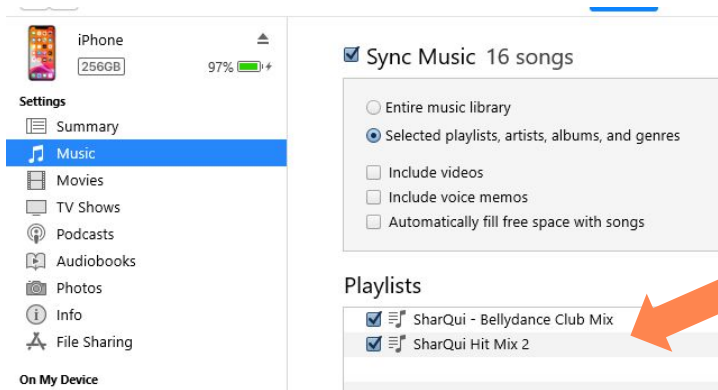

Add SharQui Playlists to the Apple Music Player

5. Connect your iPhone to your computer using a cable

6. Sync your phone to your iTunes library by right clicking the device in your Devices list. Then choose “Sync”. If you have your phone set to automatically sync with your entire music library, you’re done!

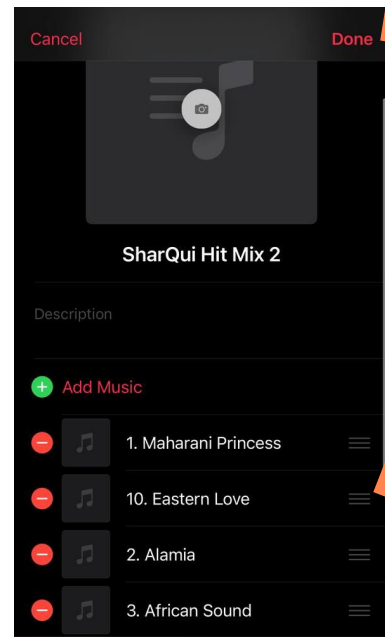

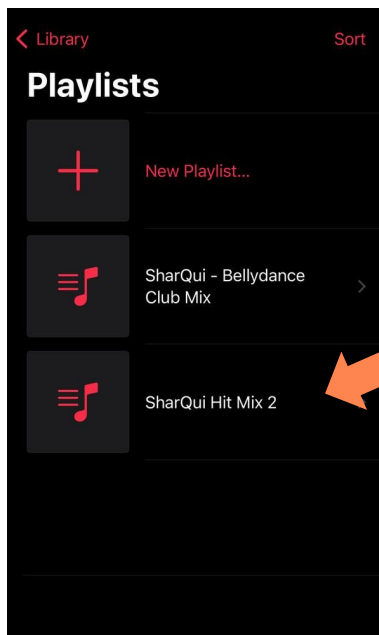

If you have your phone set to only sync specific songs or playlists, add your newly created playlist to this list by clicking the phone icon in the upper right hand corner. Make sure your new playlists are checked before clicking “Apply”!

Add SharQui Playlists to the Apple Music Player

Your new playlists will now appear in the Music app on your iPhone!

While viewing the playlist, you can enter the edit screen by clicking the 3 dots in the upper right hand corner. From the edit screen you can reorder songs, add an image, change the title or description, and even add extra songs from your library.

Tap and hold these icons to drag songs to reorder.
